FLASH

Quick Setting Admixture

We Create Rest Imitate

Grade : Domestic (Up to M20).

Appearance : Slightly Aromatic Pale Yellowish Liquid.

Ideal For : Quick water plugging at vertical or horizontal surface including bottom plugging.

Other Key Features : Seals severe water infiltration in concrete, rock and masonry. Very effective in bottom plugging work too. Compatible with all varieties of cements.

Dosage : No pre-fixed dosage can be recommended here. Dosage only can be finalized by site trial. Use directly or dilute it at the ratio [1:1(water)] to [1:4(water)] considering the type of application and infiltrating water pressure.

Instruction For Use : Clean and roughen the surface, remove all loosely adhering particles. Now, 1 part of raw or diluted Formula-1 is to be mixed with 2 – 3 parts of dry fresh OPC cement (preferably) by volume and stir briskly to form a paste. This paste is to be pressed firmly on the prepared substrate immediately after mixing until hard. Paste that has been left to set can not be reused and should be discarded.

Shelf Life : 01 (one) year from the date of manufacturing.

Pack Sizes And Price [INR (India)] : 100 ml [Rs. 50=00], 500 ml [Rs. 155=00], 1 ltr [Rs. 260=00], 2.5 ltr [Rs. 610=00], 5 ltr [Rs.1,075=00], 10 ltr [Rs. 2,010=00] and 20 ltr [Rs. 3,980=00].

Value For Money Factor : The high efficacy of this product ensures it's value for money itself. The cost gets even reduced for bigger packs.
