M-PLASTRUM

Plasticizer And Waterproofing Admixture Especially for Plastering and Mortar Work

Grade : Domestic, Commercial and Industrial. It's a Mainstream Chemical.

Appearance : Aromatic Dark Brown Liquid.

Ideal For : Internal and External Plastering, Repair and Renovation and any kind of other masonry / mortar work too.

Other Key Features : Improves strength. Makes mortar waterproofing. Gives superior surface finish. Reduces rebound loss. Reduces shrinkage cracks. Compatible with all varieties of cements and complies with IS 2645 : 2003 and IS 9103 : 1999.

Dosage : 100 ml – 500 ml per bag (50 kgs) of cement. Dosage should be finalized after initial site trials.

Instruction For Use : Make a dry mix of cement and sand (or as appropriate). Add approx 50% of required water and mix properly to make it perfectly moist. Shake well and add it (as per recommended dosage) into remaining water. Mix it well and use the same gradually to already moist mortar. Continue mixing for approx. 03 minutes to achieve cohesive mix. Normal curing is recommended.

Shelf Life : 05 (five) years from the date of manufacturing.

Pack Sizes And Price [INR (India)] : 100 ml [Rs. 71=00], 500 ml [Rs. 190=00], 1 ltr [Rs. 295=00], 2.5 ltr [Rs. 650=00], 5 ltr [Rs. 1,180=00], 10 ltr [Rs. 2,125=00] and 20 ltr [Rs. 3,780=00].

Value For Money Factor : It costs only Rs. 23=60 per bag (50 kgs) of cement [Considering 5 ltr pack size] at it's minimum dosage for domestic uses. The cost gets even reduced for bigger packs.
